

MB INCAPE

PRODUCTION & PERSONALIZATION MANGEMENT SOFTWARE

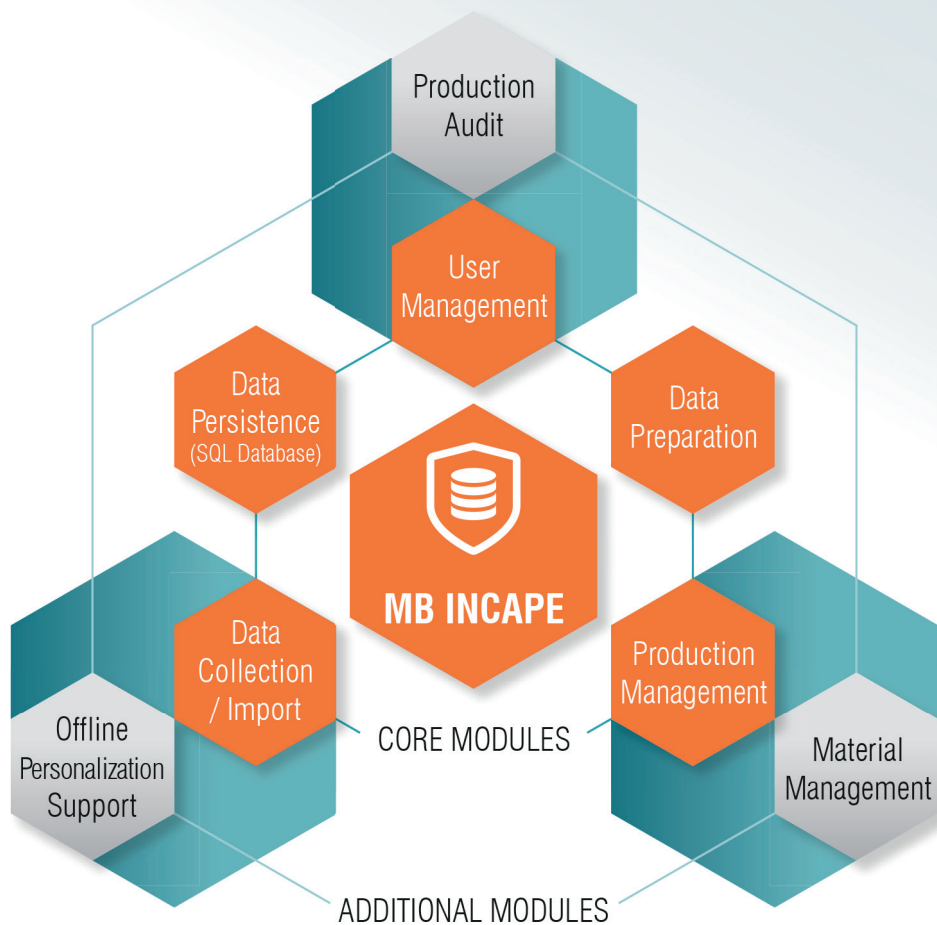

MB INCAPE

INTEGRATED PRODUCTION MANAGEMENT SOFTWARE

MB INCAPE is Mühlbauer's Production Management Software for the production and personalization of electronic cards and documents (e.g. ID cards, ePassports, Driver's Licenses, EMV or GSM cards). Combining data management, production control and material management, the system allows for highly automated processes. MB INCAPE's architecture consists of a modular concept to fulfil the needed scalability in all kinds of document body production steps,

as well as in all types of personalization characteristics, (for example centralized and decentralized processes), various types of personalization machines or application-specific data preparation scenarios. It allows to process customer- and application-specific production, personalization, quality control and document delivery scenarios with highest solution flexibility.

FEATURES & ADVANTAGES

Configurable workflow steps regarding personalization, quality assurance & issuance

Fully-automated processing & production management

Simplified administration due to web-based operator clients

Customizable UI regarding localization, internationalization & branding

Scalability regarding document-types, machines & personalization locations

Seamless tracking of documents from point of production to issuance

Flawless integration of Mühlbauer's material management system MB WAREHOUSE

Connection to card/document management systems via web service, database, file-based interface

Standard interface to personalization machines; integration of third-party machines possible

Integration of MB User Management possible

Full coverage of production control requirements (security industry & EMV standards)

Seamless connection to MB PalaMax® and MB Data Preparation
